

MONEY TO FACILITATE MOVEMENT OF CROPS

**Secretary McAdoo Will
Deposit Millions in Nat'l
Banks of Southwest**

SECURITIES ACCEPTED

**Prime Commercial Paper Will
Be Accepted by the Govern-
ment for First Time in History**

TO LESSEN MONEY TIGHTNESS

WASHINGTON, July 31.—Twenty-five to fifty million dollars of government funds will be deposited in the national banks of the south and west at once by Secretary McAdoo to facilitate the movement of crops. Federal, state and municipal bonds and prime commercial paper will be accepted as security for the money upon which the banks will pay two per cent interest.

The motive of Secretary McAdoo in establishing this policy is to anticipate the money stringency in the late summer and fall which invariably accompanies the marketing and movement of crops especially when they are unusually large as the harvest now beginning forecasts. He expects to take time by the forelock and prevent or minimize the usual tightness of money.

In a statement tonight the secretary made the significant announcement that the government bonds would be accepted at par as security for the new deposits and that the additional money would be placed only with banks which have taken out at least 40 per cent of their authorized circulation. The United States 2 per cent bonds, serving as security for most of the national bank circulation, have been depressed recently to new low market records, dropping to 65 3/4 during the last few days. The secretary's willingness to accept these bonds at par as security for the twenty-five to fifty million of promised deposits and the inducement to the national banks to increase their circulation up to the 40 per cent limit, is expected to help in restoring the parity of the depressed 2's by creating a new market for them.

Will Accept Commercial Paper.
For the first time in history the government will accept prime commercial paper as security for deposits. This privilege will be granted, the secretary announced, in order to make the special deposits available to banks on securities readily within their reach.

"The commercial paper submitted," Mr. McAdoo added, "shall first be passed upon and approved by the clearing house committees of the cities in which the banks offering such paper may be located. If commercial paper and bonds must finally be passed upon and accepted by the secretary."

Approved commercial paper will be accepted as security for the deposits at 65 per cent of its face value and high class state, municipal and other bonds, exclusive of government bonds, at 75 per cent of their market value.

Placed in Principal Cities.
The additional deposits will be placed with the national banks in the two or three principal cities in each of the states where harvesting is now in progress and where the demand for money for moving the crops most conveniently can be met. The secretary said it would not be practicable to scatter the deposits among the smaller cities, especially in view of the character of securities necessary. The banks will be required to return the money to the public treasury when the crops have been moved. The per cent suggestion, Mr. McAdoo said, that 15 per cent be repaid in December, 30 per cent in January, 30 per cent in February and 25 per cent in March next.

"Steps are now being taken to carry out the plan," the secretary added, "so that the funds may be promptly available for the movement of the crops."

The names of the banks to receive the deposits and other details of the arrangement will be announced later.

This new policy is the antithesis of that adopted by former Secretary of the Treasury MacVeagh who a year ago declined to make government deposits to relieve the tight money market, on the ground that the moderate surplus federal funds at that time should be held as a reserve to be utilized at some possible critical stage. With the net balance in the general fund today amounting to nearly \$132,000,000 Secretary McAdoo has taken the stand that the government should anticipate the situation by placing deposits where and at the time they are needed. The full \$50,000,000 is deposited this step will temporarily nearly double the government's deposits with the banks, which at the present time hold \$58,000,000 of federal funds.

RING-LEADERS OF STRIKE DISORDERS**

Wolverine Posse Have Busy Time Arresting Proprietor of Hungarian Boarding House—Posse Ends With Rescue of Officers by State Troops.

BULLETIN
CALUMET, Mich., July 31.—Dynamite became a factor in the copper mine strike tonight arrests of eight alleged plotters being followed by rumors that the Portage Lake bridge connecting Hancock and Houghton was to be an object of attack. Guards of militia were posted at the end of the structure and street car passengers, artists and pedestrians were not allowed to pass until they had satisfied the troop commanders that their intentions were pacific.

CALUMET, Mich., July 31.—Incidental to the copper mine strike, hot water, red pepper and various household utensils were used as a supplement in an effort to imprison ring-leaders of the disorders which marked the first two days of the strike. Warrants were served in half a dozen mine locations and the jail population was increased to one of its highest records in Houghton county. The Wolverine posse consisted of William Heikkila, an under sheriff and four deputies. They carried a warrant for Louis Soder, proprietor of the boarding house, charging him with being a leader of the party that attacked Gust Olsen, a big fireman on Tuesday night. The deputies found their man hiding in a cupboard and when Heikkila jerked open the door Soder fired a revolver, sending the officer's coat flying and wounding the weapon toward Soder as they struggled toward the door Mrs. Soder, the officers say, threw a kettle of hot water on them.

Men and Women Joint Fight.
Another woman and two men joined the Soder's hurling red pepper at the deputies' eyes and converting the pursuers and other furniture into missiles of offense. Outside a crowd of 200 mine workers had gathered but the fracas attracted also two squads of state troops. The crowd started to push the posse and the militia drove them back with bayonets. Joseph Sufoina and Andrew Vince were arrested charged with interfering with the officers and the three men were placed in an auto mobile and rushed to the Houghton jail.

Their arrival increased the number of alleged rioters under arrest to a score. Most of the men have been charged with rioting and inciting to riot, but some face charges of felonious assault. The Western Federation of Miners officials say every possible effort will be made to provide a successful defense for the arrested men. The union officials denounced the arrests as unwarranted, asserting they were based upon exaggerated accounts of strikers activities and that an effort was being made by the operators to "railroad" every prominent local unionist.

Seven arrests were made at Red Jacket location on the northern border of Calumet tonight when troops stationed at the shaft drove away a crowd of strikers gathered about the home of William Carmichael, a mine foreman. The prisoners were charged with threatening to destroy the house by dynamite.

Carried Stick of Dynamite.
The sheriff's office investigated reports that a considerable shipment of high explosive had been shipped into the district but suppressed information thereon. The eight arrests were made at the Red Jacket shaft near Calumet search of one of the prisoners revealing a capped and fused stick of dynamite. The non-commissioned officer who arrested this man said the prisoner had tried to strike a match as the party approached the guard house. On report there was based a belief that the man had intended to hurl the dynamite into the quarters of his captors.

Sheriff Hepting of Keweenaw county made his first direct request for military aid to Col. Hecla in charge of the Mohawk district tonight. The sheriff said a powder house there was in danger of attack and he asked that it be guarded until the explosives could be removed.

FIRE DRILLS COMPULSORY.
New York, July 31.—One of the results of the Binghamton fire was the issuance to day of an order by Fire Commissioner Johnson to 1,000 owners and lessees of factories in New York instructing them that fire drills after a prescribed form must be held in their establishments at least once a month under a penalty of \$500 fine.

NOMINATED MAYOR.
New York, Aug. 1.—John P. Mitchell, collector of the Port of New York, was nominated for mayor of the Fusion ticket by the Fusion committee of 101 shortly before 2 o'clock this morning. Mitchell received 45 votes to 43 for Charles P. Whitman. The nomination of Mr. Mitchell was afterwards made unanimous.

WOMEN CANNOT SERVE ON JURIES IN ILLINOIS

**ATTORNEY GENERAL LUCEY GIVES
OPINION IN LETTER TO VA. MAN**

Court Holds That "A Jury of Twelve Men" Must Be Empanelled—Joint Legislative Commission Meets in Springfield Tonight.

BULLETIN
SPRINGFIELD, Ill., July 31.—According to an opinion given today by Attorney General Lucey, women cannot serve on juries in this state. The opinion was given in answer to a letter written by Justice of the Peace Alex Robinson of Virginia, who inquired whether women could sit on juries in justice of the peace courts. Attorney General Lucey in his opinion says that the constitution of 1870 provides that "the right of trial by jury heretofore enjoyed shall remain inviolate; but the trial of civil cases before justices of the peace by a jury of less than twelve men may be authorized by law."

In interpreting the meaning of the constitutional provision the supreme court holds that the right of trial by jury, guaranteed under the provision of the constitution quoted above is right of trial by jury as it existed at the common. The court further holds that "a jury of twelve men" must be empanelled and any less number would not be a common law jury.

Attorney General Lucey in concluding his opinion said: "Women at common law were not qualified to sit as jurors except in case of writs de ventre inspiciendo. Commission Meets Tonight."

Senator W. Duff Piercy of Mount Vernon came to Springfield tonight to attend the opening meeting here tomorrow night of the joint legislative commission, created by the forty-eighth general assembly to make a study of the various boards, bureaus, commissions, departments and institutions of the state with a view to consolidation and abolition in the interests of economy and efficiency. The joint commissions consist of Senators W. Duff Piercy, Mt. Vernon; Walter I. Manny, Mt. Sterling; Chas. F. Harburg, Galesburg; and Logan Hay, Springfield; and Representatives E. J. Smejkal, Chicago; Charles P. Clyde, Aurora; John M. Rapp, Fairfield; and Speaker William McKinley, Chicago.

Governor Dunne suggested the idea of the commission in his inaugural address.

Speaking tonight of the work of the commission, Senator Piercy said: "For the past twenty years state boards, bureaus and commissions have been piled until scarcely anyone knows how many there really are. These boards have been created at different times and are not correlated one with another, and there is consequent overlapping of functions with a corresponding waste of money and energy. It will be the work of the present commission to make a close study of the state's payroll and to report back to the next general assembly a plan for consolidation where consolidation is possible to the end that money may be saved and greater efficiency secured."

WILL CLAIM CHAMPION FOR STANISLAUS ZBYSZKO

**Manager Herman Will Claim Honors
If Gotch Continues to Decline
Match.**

Duluth, Minn., July 31.—Stanislaus Zbyszko's manager said here today that he would formally claim the world's heavyweight wrestling title for the Pole by the first day of September in the event that Frank Gotch continued to refuse to meet Zbyszko in a finish contest.

"We will wrestle, winner take all and will willingly submit to any conditions the Iowa Farmer will name," Manager Herman said. "If Frank wants to remain out of the game, well and good; but when he wrestles some of the men that the public knows that Zbyszko can beat and refuses to meet him, we think he is entitled to the championship."

TO PROMOTE BARGE LINE BETWEEN NEW ORLEANS AND CHICAGO

**President of Company Says That
Line Will Be in Operation Within
Three Months.**

St. Louis, July 31.—A Chicago-to-New Orleans barge for freight and passenger service will be in operation within three months, according to Edward White, president of the companies promoting the line, who was in St. Louis today to confer with government officials and rivermen. The plan as unfolded by Col. C. Townsend, president, is to Mississippi river commission, is to have a fleet of 150 ton barges sailed by their own power to La Salle, Ill., there they are to be taken in tow by a powerful steamer. White claims the water trip from Chicago to the Gulf will be made in one week. Later local stops may be arranged for.

SHOOTING NEIGHBOR.
Chicago, July 31.—E. J. Duprey tonight shot and probably fatally wounded H. L. Gronimus, a neighbor who had been acquitted of attacking Duprey's 12 year old daughter. The two men had been friendly up to several months ago when Gronimus was arrested on the girl's charge that he had attacked her. The grand jury failed to indict him on the evidence offered.

MANY QUESTIONS ARE ASKED MULHALL

**Lobbyist Is On Witness
Stand Five Hours and 116
Queries are Made**

NO CROSS EXAMINATION

**Attorneys for the N. A. M. Were
Denied the Right to Cross
Examine Witness Directly**

WITNESS DEMANDS COUNSEL

WASHINGTON, July 31.—To an accompaniment of arguments between counsel and members of the committee, between Democratic and Republican committee members and between Martin M. Mulhall and everybody connected with the case, the cross examination of the alleged lobbyist for the National Association of Manufacturers proceeded haltingly today before the senate investigating committee. In the five hours Mulhall was on the stand about 116 questions submitted by counsel for the association were put to him by Chairman Overman, Robert McCarter and James A. Emery, attorneys for the association, were denied the right to cross examine the witness directly, but after much debate were permitted to submit questions based upon replies the witness made to the queries already submitted.

Wants Counsel.

Mulhall, always an interesting witness, ready to make comments upon the attorneys of the National Association of Manufacturers or its officials, surpassed himself in spite of continual warnings by the chairman. He declared once that unless the committee allowed him to have counsel he would refuse to answer further questions and would rather go to jail. Chairman Overman finally became so angry that he told him unless he refrained from superfluous comment and stuck to plain facts he would be subjected to discipline. Mulhall subsided after the admonition.

Claim Witness Was Discharged.
The National Association of Manufacturers' attorneys sought to show that Mulhall was discharged and did not resign from the association. An effort to go into his private life was not allowed by the committee. The lawyers were just getting to the question of the motives back of Mulhall's exposure when the committee adjourned. The witness had time, however, to deny that he had "knifed" the late Senator McComas of Maryland several years ago.

Working against the senator for reelection while posing as his friend, he admitted that he sent out circulars to business men in Baltimore while seemingly still a friend of McComas, but swore that he did this under orders of Marshall Cushing, at that time secretary of the association. The lawyers referred to a friendly letter Mulhall wrote to Cushing just after the secretary left the association's employ and then read from another dated a few weeks later written to an official in which Mulhall attacked Cushing bitterly. Examined by members of the committee Mulhall said Cushing gave him his employment with the National Association of Manufacturers and that he always thought him a friend until the latter quit.

"Then I found out that I wasn't even known by name—that Cushing had given me a number and that he was taking all the credit for what was done here," he said.

Asked About Accounts.
Members of the committee asked Mulhall about items in many of his expense accounts for the sum of \$80 paid to two party workers in a New Jersey campaign which appeared almost weekly in his statement for a long period of 1910. Mulhall swore the money was paid to Frank Penney, a Philadelphia labor leader, who denied that he had had a serious disagreement with General Manager Bird and Attorney Emery about these items or this disagreement had anything to do with his "resignation." He swore, too, that the disappearance of this particular item from expense accounts rendered after this interview was said to have taken place was because the campaign was over and not because he had been warned to leave it out.

TRAIN STRIKES AUTOMOBILE KILLING ENTIRE FAMILY OF FOUR

**George O. Morris, Wife and Two
Daughters of Greenville Are Killed
Instantly.**

Greenville, Ill., July 31.—George O. Morris, his wife and their two daughters were killed when a Vanderbilt train struck their automobile at a crossing here today. Jacob Hackman, the fifth occupant of the machine, escaped injury by jumping. Morris was a wealthy farmer and the manufacturer. He was formerly a member of the city council and president of the board of education. Death was instantaneous for the members of the Morris family. The girls were 19 and 17 years old.

PRESIDENT IS NOT SWAYED BY ARGUMENTS

ARGUMENTS OF MEXICAN AMBASSADOR SEEM TO CARRY LITTLE WEIGHT

Executive is Formulating Policy But Is Still Opposed to Recognition of the Government Set Up by Provisional President Huerta.

WASHINGTON, July 31.—President Wilson indicated to day to those who discussed the Mexican situation with him that he had not been swayed in the least by the arguments of Ambassador Henry Lane Wilson in favor of recognition for the Huerta government in Mexico. He conveyed that his analysis of conditions from official and from unofficial reports and his judgement of what should be done had not been altered by the Ambassador's statements.

The president is formulating a policy which he told his callers involves nothing that is not entirely friendly to Mexico. He has not yet announced what his program will be but he is opposed to recognition under any circumstances of the government set up by Provisional President Huerta through the events in which President Madero and Vice-President Suarez met tragic death.

It developed to day that Democrats in the senate were concurring in this view and further discussion of Ambassador Wilson's statement before the senate foreign relations committee brought out a general sentiment of opposition to the suggestion of the recognition of the Huerta government.

Ambassador Wilson planned to go to New York tomorrow for a brief visit, returning immediately to Washington. He said tonight he had been authorized by Secretary Bryan to deny that any leave of absence had been extended to him. The ambassador is without direct information as to whether President Wilson has approved or rejected his recommendations on the Mexican situation. He also has not been instructed as to his future.

DESCRIBES RECENT BATTLE BETWEEN GREEKS AND BULGARS

**Fight Is Reported to Have Raged
in Djumia District for Two Days—
Greek Losses were 2,000 Killed.**

London, Aug. 1.—The Daily Telegraph's correspondents with the Greeks at Saloniki describe the recent battle between the Greeks and Bulgarians in the Djumia district as the most hotly contested and sanguinary of the war.

The Bulgarians, the correspondents say, reinforced by 50,000 men who had been withdrawn from the Serbian frontier, made an unexpected attack upon the Greek wing. The fight raged for two days with varying successes, but victory finally rested with the Greeks who recaptured their lost position.

The Greek losses were 2,000 men killed, including many officers bearing historic names, and between 6,000 and 7,000 wounded. A dispatch to the Times from Sofia says the Bulgarian military situation with a five days' armistice was arranged and considered favorable. The correspondents say the Bulgarians have occupied Nevrokopi, a strategic point in the Struma valley and are believed to be advancing on Melnik, about fifteen miles southwest of Nevrokopi.

Equal forces have been employed for the first time by both sides in the recent battles.

CALIFORNIA STAR WILL MEET BLAIR FOR TENNIS HONORS TODAY

**Clarence Griffin to Meet Lake Geneva
Player in Finals.**

Chicago, July 31.—In a brilliant tourney featured by unexpected victories of two "dark horses" and a thrilling match between Clarence Griffin of California and Heath Byford of Chicago, the western tennis singles championship meet today reached its semi-finals. Tomorrow Griffin will play William Blair of Lake Geneva, who turned one of the big upsets of the tournament in knocking John Adams of Minneapolis, one of the best men in the north central states, 6-4, 6-4.

John Strachan, suffering from illness aggravated by the heat, defaulted his match to L. Harry Waldner, the Chicago veteran, despite of attempts of friends to persuade him to compete.

Adams' defeat by Blair was a great disappointment to his many friends but the Lake Geneva man deserved to win on the form he showed. Griffin, however, is expected to beat him tomorrow.

RUMSEY-HANAN JEWELS ARE BEING SOUGHT IN BIG CITIES

**Detectives Are Satisfied Robberies
Are the Work of an Expert Gang**

Narragansett Pier, R. I., July 31. The jewels stolen from the summer homes of Charles Cary Rumsey and John J. Hanan are being sought in New York, Boston and other cities where big transactions in precious stones are not uncommon. Large dealers in diamonds have been cautioned against dealing with strangers who have jewelry of great value for sale.

This move is taken to indicate a belief that the thieves have left town with their booty and have covered their immediate tracks. Although the police throughout the country have been asked to watch the pawnshops, the detectives are pretty well satisfied that the robberies are the work of an expert gang who are too shrewd to do business with pawnbrokers.

The more the matter of the robberies is studied the clearer it becomes to the detectives that they were committed with skill. It is inconceivable to them that sneak thieves having obtained \$150,000 worth of jewels at Mrs. Hanan's last Friday night—would remain here, risking detection to get perhaps half as much in value from the Rumsey home on the following night. Several detectives were at work on the Hanan case at the very hour of the second robbery.

TWENTY ONE KILLED BY AUTOS IN COOK COUNTY DURING JULY

**Victims Increase Almost 100 Per
Cent Over July, 1912—Twenty
Were Killed During June, 1913.**

Chicago, July 31.—Twenty-one persons died as the result of automobile accidents in Cook county during July, 1913. Automobile fatalities numbered 12 in July, 1912, and twenty in June, 1913.

"This increase of 100 per cent in deaths by automobiles is such as should draw the attention of the lawmakers, the police and courts," said Coroner Hoffman. "Instead of getting the criminal speeding evil under control, I fear that it is getting away from us. The coroner's juries are doing their part by holding violators of the law to the grand jury."

THUNDERSTORMS IN INDIANAPOLIS.

Indianapolis, July 31.—A thunderstorm which approached cyclonic proportions did much minor damage in Indianapolis and vicinity late to day but caused a drop of 27 degrees in temperature to 69 in an hour's time. Plate glass windows throughout the business district was blown in and houses unroofed in the residential section where trees were uprooted. Street car service was stopped for a short time and telephone an telegraphic communication interrupted. Storms over the state to day brought relief from the heat wave that has caused much suffering since Monday.

KILLED BY C. & N. W. TRAIN

Clinton, Ia., July 31.—Miss Bertha Janney and William Leutenen were killed and Mrs. Charles Hanson was probably fatally injured when struck by an eastbound Chicago & North-western passenger train here tonight. Miss Janney's head was severed. They were walking on the tracks. A baby in a baby carriage and a child walking with them escaped injury, although the baby buggy was smashed.

SENATOR THORNTON RAPS FREE SUGAR

**Louisiana Senator De-
nounces Free Sugar Plank
as Un Democratic**

SEN. GRONNA'S ATTACK

**Republican Senator Assails
Measure from the Stand-
point of the Farmer**

SUFFRAGETTES IN CAPITAL

WASHINGTON, July 31.—Democrats of the senate who stand pledged to vote for the tariff bill, listened today to one of their number who has repudiated the administration measure because of the free sugar plank. Senator Thornton of Louisiana in a vehement speech pictured the ruin that free sugar would bring to his state, denounced the policy of free sugar as un-Democratic and characterized his party's action as a "pity" and a "shame."

The attack from within the party ranks, the first that has been made since general debate began, was followed by another from the Republican side when Senator Gronna of North Dakota assailed the measure from the standpoint of the farmer. Nearly the entire time for discussion of the bill was taken up with these addresses and little progress was made in consideration of the schedules. The double attack did not serve to sway the Democrats from their determination not to take up time in general debate. The Democratic leaders still assert that they will content themselves with a brief opposition to amendments as they are offered from day to day. Later Senator Shively of Indiana plans to answer the arguments and criticism of the minority.

Appeals of the manufacturers voiced in the senate several days ago for an understanding between the senate and the house as to the date when the rates on woolen manufacturers are to be made effective have failed to bear fruit.

Senator Simmons, chairman of the finance committee, announced that Republican senators read petitions asking that something be done that they would confer with Majority Leader Underwood of the house with a view to bringing about an agreement. This, he has done, the result being that the house intends to stand firmly behind the provision that free raw wool and the rates on woollens shall become operative immediately upon the passage of the bill.

The senate bill proposes that raw wool shall be free on Dec. 1, 1913, and that the reduced rates on woollens shall become operative on Jan. 1, 1914.

Snuff Flock to Washington.
From all over the country supporters of the "votes for women" cause came to Washington today to plead the issue before congress. The senate, the only body of congress in session, left off its sober tariff work for more than two hours and listened to the frills and furbelows of suffrage argument.

Delegations from every state in the union presented to each senator on the floor petitions urging the support of the Chamberlain resolution to amend the federal constitution to confer suffrage on women and practically every senator presented the petitions to the senate. Many made speeches declaring their sympathy with the movement and a few announced their intention to vote against the resolution. The visit to the senate concluded an automobile parade from Washington, Maryland, a suburb of the capital, where she suffragists were met and welcomed by members of the senate woman suffrage committee which has voted a favorable report on the Chamberlain resolution. Tonight the suffragists gave a big banquet at which more than a score of members of the house and senate and other public men were present.

WOULD CLEAR YANG-TSE OF REBELS.

Peking, Aug. 1.—With the fall of the forts at the mouth of the Yang-tse river which is believed here to be imminent the Yang-tse would be cleared of rebels and it is thought the rebellion then would resolve itself into a provincial outburst which soon could be controlled. Reports received here from Shanghai say that Dr. Sun Yat Sen, former president still is there, but that General Cheng-Chi-Men and General Huan-Sing two other leaders in the revolt have fled.

WILL FILE CLAIM FOR DAMAGES.

Rockford, Ill., July 31.—The management of the Rockford club of the Wisconsin-Illinois league is to file a claim with the national baseball commission for \$1,000 damages following the action of the tight money market, on the ground that the moderate surplus federal funds at that time should be held as a reserve to be utilized at some possible critical stage. With the net balance in the general fund today amounting to nearly \$132,000,000 Secretary McAdoo has taken the stand that the government should anticipate the situation by placing deposits where and at the time they are needed. The full \$50,000,000 is deposited this step will temporarily nearly double the government's deposits with the banks, which at the present time hold \$58,000,000 of federal funds.

THOMAS BLAND SERIOUSLY INJURED IN RUNAWAY

Franklin Resident Sustains Severe Hurts When Horse Ran aWay.

Thomas Bland, a well known farmer, residing two miles east of Franklin was seriously injured Thursday afternoon at 1:30 o'clock as the result of a runaway.

Mr. Bland was driving to Franklin and while going down a hill the belly band broke, letting the rig go against the horse. At the same time the shafts went in the air frightening the horse badly which was soon beyond the control of the driver. After going a short distance Mr. Bland was thrown out and half an hour later was found lying beside the road by C. R. Jones, a rural mail carrier.

He was taken to the office of Dr. J. M. Elder where it was found that he had two ribs broken on the left side, the left collar bone broken, two cuts on the side of the head, one about four inches long and the other two inches in length. He also complained of internal pains, and altogether is a very sick man.

Mr. Bland was unable to tell just how the accident happened. All he remembers was that the harness broke and he was thrown out of the rig. He was unconscious for some time and it is thought he was by the road some thirty minutes before being discovered.

MONEY TO FACILITATE MOVEMENT OF CROPS

(Continued from Page One)

grass acted quickly to provide an emergency, the cotton planters of the south would lose a hundred million dollars through inability to get money to move their crops.

In his statement the senator declared that if congress did not supply relief in sixty day southern cotton planters would lose "a hundred million dollars or more" on account of the inability of Southern bankers to get money from New York "pirates."

He urged that some kind of resolution be put through immediately to afford temporary relief and that the public banking and currency committee "stop squabbling" and allow permanent currency legislation to be enacted.

The senator expressed the hope that the committee would work out a practical scheme to inspire confidence in the business people of the country, so that they would lend money to the banks at three per cent on satisfactory collateral.

Adopt Amendment. Events crowded upon each other to day in the progress toward completion of the currency bill in the house committee on banking and currency. Chairman Glass secured the adoption of an amendment in the Democratic conference for the creation of an advisory board of twelve bankers, whose privilege it shall be to confer at regular intervals with the federal reserve board that would be created under the new currency plan.

He also presented his proposition to prohibit interlocking directorates among National Banking institutions. This amendment precipitated a discussion however, and was carried over without action until tomorrow.

During the day Representative A. Mitchell Palmer, chairman of the Democratic caucus, sent out a call for a currency caucus on August 11th to take up the bill. Efforts will be made at the committee meeting tomorrow to perfect the measure as nearly as possible, but several majority members of the committee are at present radically opposed to its provisions and refuse to give it their endorsement.

Representative Eagle of Texas, to day issued a long criticism of the bill, declaring it was "fundamentally bad" that it would sacrifice the country banker to the city banker and that it would place dangerous control of the country's welfare in the hands of a few men.

To Investigate Charges. Another development of the day was the demand for an investigation by the house of Secretary McAdoo's recent charge that New York Bankers are engaged in trying to depress the value of government two per cent bonds, in order to create sentiment against the administration currency bill. Representative Geely of Kansas prepared a resolution which will be introduced tomorrow asking Secretary McAdoo to appear before the committee to prepare proof of his charges.

"My experience as a member of the money trust committee, convinces me that Secretary McAdoo was correct in his statement that there is a deliberate conspiracy to depress government bonds on the stock exchange," Representative Neely said in a statement that accompanied the publication of his resolution.

Representative Eagle, who was broken entirely with the supporters of the Glass bill, declared in his statement the measure ultimately would force all banking interests of the country into a gigantic plan to control the election of the president of the United States, "since each president in the future will have the appointment of the majority of federal reserve board of directors."

FOR RHEUMATISM. George W. Koon, Lawton, Mich., says: "Dr. Detton's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Allcott, druggist.—Adv.

to be recognized that trust companies are the logical and safe custodians of estates and trust funds.

Examinations of Probate Court records reveal that much property of estates which have been placed in the hands of individuals has been lost thro needless litigation, incompetent management or the application of trust funds to speculation, etc.

The trust company represents stability and permanence. It cannot abscond, speculate with trust funds, go on vacations or render false accounts. It offers as protection its capital, double liability of shareholders, its knowledge of estate affairs and its careful system of accounting.

Its charges are fixed by law, cannot be more than the charges of individuals, and services considered are really less.

DES MOINES, Ia., July 31.—Dr. Charles E. Heintzman of Matamora, Ill., who was seriously injured near Grinnell, Ia., recently when his car turned turtle, died at a hospital today. His daughter Mary was killed at the time of the accident.

COLON, July 31.—A party of ninety-five Mystic Shriners from New Orleans arrived here today on board the steamer Atenas. The Shriners will make a tour across the Isthmus, visiting the points of interest in the canal zone.

GAINESVILLE, Fla., July 31.—After falling one hundred feet from his balloon today, Fred Lowen picked himself up and declared he was unhurt. His fall was broken by the branches of a tree.

Owen was taking part in a program of events at the University of Florida.

MORRILLTON, Ark., July 31.—Twenty-six miles of road connecting this city with Martinsville were built between sunrise and sunset today. More than 1,500 men and 300 teams participated in the work done by the One Day Good Roads club. Expenses were paid by volunteer citizens and the machinery expenses were paid for by the county.

MACOMB, Ill., July 31.—Herman Peters, a volunteer fireman, was burned to death and property damage of \$120,000 was caused by a fire that destroyed the plant of the Western Stoneware company here today. Peters fell through a skylight into the flames. He had been a volunteer member of the fire department for twenty years.

MUNCIE, Ind., Aug. 1.—Three Pullman cars of a Big Four passenger train due here at 1:25 this morning are reported to have toppled from a bridge a few miles west of here. A number of passengers are reported to have been seriously injured. The train was bound for New York from St. Louis.

Railroad officials here assert that the three cars were only derailed and remained upright. Other reports received from nearby farm houses say three persons have been killed.

FIRE DESTROYS MILLION DOLLARS WORTH OF PROPERTY

Six Hundred Men Will Be Thrown Out of Employment as Result of Bangor Fire.

Bangor, Pa., Aug. 1.—Fire which broke out shortly before midnight in the plant of the S. Flory Manufacturing company, destroyed property valued at nearly \$1,000,000 and was still burning fiercely at 1:30 o'clock this morning. Besides the Flory manufacturing plant, the Flory Millon company plant, a furniture store, and four residences have been destroyed.

Six hundred men will be thrown out of employment through the destruction of the Flory plants.

Fire Under Control. With the assistance of an automobile engine, other apparatus which was sent from Easton the fire practically was gotten under control at 2 o'clock.

HEALTH RULES.

Japanese Regulations for Keeping Well.

The Japanese government has had printed and widely distributed the following rules for the general guidance of the people in health matters:

First—Spend as much time out of doors as possible. Bask much in the sun and take plenty of exercise. Take care that your respirations are always deep and regular.

Second—As regards meals, eat meat only once a day and let the diet be eggs, cereals and vegetables, fruits and fresh cow's milk. Take the last named as much as possible. Masticate your food carefully.

Third—Take a hot bath every day and a steam bath once or twice a week if the heart is strong enough to bear it.

Fourth—Early to bed and early to rise.

Fifth—Sleep in a very dark and very quiet room, with windows open. Let the minimum of sleeping hours be six or six and one-half hours. In case of women eight and one-half hours is advisable.

Sixth—Take one day of absolute rest each week, in which you must refrain from even reading or writing.

Seventh—Try to avoid any outbursts of passions and strong mental stimulations. Do not tax your brain at the occurrence of inevitable incidents or of coming events. Do not say unpleasant things nor listen, if possible to avoid it, to disagreeable things.

Eighth—Be married! Widows and widowers should be married with the least possible delay.

Ninth—Be moderate in the consumption of even tea and coffee, not to say tobacco and alcoholic beverages.

Tenth—Avoid places that are too warm, especially steam heated and badly ventilated rooms.

SHIP RIFLES TO MEXICO.

New York, July 31.—On the manifesto of the Steamship Mexico of the Ward Line which sailed today for Vera Cruz, Mexico, were 150 cases of rifles and 225 cases of cartridges consigned to the military governor of the state of Vera Cruz. It was explained at the offices of the downtown firm that shipped the ammunition that they had a permit from Washington for the shipment.

GASOLINE TANK EXPLOSION BURNED NOT LESS THAN 35 PEOPLE

Eight Persons Are Dead at Cincinnati as Result of Accident—Amusement Park Heads Arrested.

Cincinnati, O., July 31.—A recapitulation of the casualties which followed the crashing of the machine driven by Odin Johnson into an electric light pole at the motordrome last night show that the gasoline from the tank of the cycle burned no fewer than 35 persons.

Eight persons, three men, three boys and two women are dead.

Three others, a woman and two men cannot recover according to the attending physicians, seven others are in a serious condition while eighteen others sustained injuries of a more or less serious nature but were able to take care of themselves following the accident. Warrants were issued to day at the instigation of the coroner which charge voluntary manslaughter and were directed at the three heads of the amusement park.

The men were arrested tonight and released on bail.

DISCUSS JACKSONVILLE-SPRINGFIELD ROAD.

Pike County Men in City Thursday to Confer With F. J. Heint on Proposed Route.

Fred A. Stone, C. F. Simmons and H. C. Hunter of Griggsville were in the city Thursday discussing the western Illinois state aid road through the counties of Pike, Scott, Morgan and Sangamon. In conference with F. J. Heint, chairman of the department of rural affairs of the chamber of commerce, they agreed to work for the route that will be a benefit to the most people. They assented to Mr. Heint's opinion as to the desirability of the route from Springfield to Jacksonville as one section of the proposed road and agreed that the persons interested should insist that the Springfield commissioners build the section of the road which lies in Sangamon county at once.

The Bluffs-Jacksonville branch of the road was discussed with Mr. Heint by Henry Vannier of Bluffs, who was in the city Thursday to confer with him about the road. The road through Springfield and Jacksonville as the first section to be built is favored by numbers of citizens of White Hall and vicinity. Mr. Heint talked to a number of citizens of Greene county Wednesday when on an automobile trip to the south and found the sentiment to be very strong for the route through Jacksonville.

RAILWAY MAIL PAY.

The committee on railway mail pay, representing 264 railroads, operating 218,000 miles of lines, have prepared a statement declaiming the present plan of paying the railways for cars carrying the mail results in great injustice to the railroad. The roads are now paid by two methods of measurements, according to the weight hauled each mile and for each mile a postal car is used for sorting mails enroute. The railroads claim, however, that the nation does not pay for the entire weight carried or for all the car space utilized for sorting.

Since per cent of all money comes from the first source. The postoffice department has constructed the law to mean that the mails shall be weighed but once every four years. The result is that though there is a constantly increasing weight of mail, the railroads receive no payment whatever for the increase until the next quadrennial weighing period, when a basis in average is gained which governs the payments for the succeeding four years.

The parcels post started January 1, 1913, and immediately there was a great increase of mail and a reduction of express matter for which the railroads had been previously paid. Congress has allowed a 5 per cent increase in pay to compensate for the parcels post, but the records already indicate that the government's postal revenues will increase this year from 20 to 30 per cent on account of the parcels post.

The government makes no additional payment for speed or for frequency of service. There is no greater pay accorded the railroads for carrying mails at a speed of sixty miles per hour than for fifteen miles per hour. There is no greater pay for 100 trips a day than for one trip a day. The aggregate weight of mail carried, and therefore the pay, is the same, whatever the speed or whatever the frequency with which it is carried.

The railroads maintain, therefore, that while weight is the proper measure of pay, it should be ascertained every year and paid for accordingly.

To facilitate the distribution of mail enroute, the railways have provided 388 traveling postal cars. The mileage made by full postoffice cars of all sizes in the performance of service during the fiscal year 1912 was 126,798,405. Passenger cars on American railroads the same year yielded revenue of about 25 cents for each mile run. If the railway postal cars had yielded as much per mile, it would have amounted to a total of \$31,699,601.

FOOTBALL RULES SHOW FEW CHANGES FOR SEASON OF 1913

Kicker is Now Permitted To Stand Any Distance From Line of Scrimmage Instead of at Least Five Yards Behind the Line.

New York, July 30.—The intercollegiate football rules as promulgated by the football rules committee to day show few changes in the gridiron code for the season of 1913. The majority of the alterations are technical and will have little effect upon the game. The most important change is the rule which permits the kicker to stand at any distance from the line of scrimmage when kicking, instead of at least five yards behind the scrimmage line. Under the new regulations it is expected that quick kicking from directly behind the forwards will be a playing feature.

Another change permits the return of a player at the beginning of any period or at any time during the fourth or last period.

In the rules regarding the conduct of players after a forward pass or after a kick insertion of the words "after the pass has been" now makes it clear that players may not interfere with one another until the pass is actually made.

NICHOLS PARTY VISITS SCENES IN CHINA

Noted Temples, Places of Worship and Educational Institutions of Great Empire Inspected.

Continued from Tuesday July 22.

The city has in its midst a number of missions, the oldest of which is the Roman Catholic, which has five churches. One of these, the Pei Tang, has a great history. During the Boxer troubles the French and Italian soldiers made a heroic defense of this church, in which the late Bishop Faver and his associates and thousands of Christian Chinese took refuge. Attached to this church is a seminary, in which a large class is preparing for the priesthood and in the vicinity are many buildings, such as hospitals, schools and the like. The priests conduct a normal school, the sisters have an educational establishment, two convents and there are several societies, schools, hospitals, etc.

The Methodist Episcopal mission is very strong and has fine quarters and an excellent plant with thirty missionaries, under whose leadership is conducted the Peking university, with upward of seven hundred students and in addition there is a hospital with a good force, treating some 35,000 patients annually.

The London mission has twelve missionaries, the Congregational, the American Board, has a good force, the Presbyterian has fifteen, the Church of England, twelve, and in addition to all these enterprises there is the Union Medical college, which gives a good medical education, requiring five years and fits its graduates for the profession so that they are recognized by the Chinese government. There is a Greek church or Russian mission, an institution for the blind, the Chinese Imperial university and the Imperial College for Languages.

There are two great divisions of this place: first the Chinese city, which is surrounded by its own wall on the east, west and south and the Tartar wall on the north. It contains most of the business houses and shops, of which there are many, all open to the street in warm, pleasant weather. It has in all ten gates, which are imposing structures, erected where streets pass through the wall and are high enough to afford the observer a fine view of the city.

The last named city is called the outer wall, while the Tartar or Manchu is the inner. It is surrounded by a wall fourteen miles long, 41 feet high, 50 feet wide at the base, and 50 at the top. It affords a fine place for a promenade during the cool part of the day. It has nine gates and some of them are also imposing structures, the Chien Men being the most important, spanning, as it does, one of the principal streets of the city and through it passes a never ending stream of animals and vehicles.

Another important part of the place is the Imperial City, which is within the Tartar City and is surrounded by a high brick wall and a moat. It was built during the Ming dynasty by Emperor Yang Lo in the early part of the fifteenth century and has an outer wall about six miles in circumference, 18 feet high and six and a half feet thick. It has three superb gates and they are much admired. South of the Imperial City is the Forbidden City, which may not be visited and we were informed at the American embassy that President Yuan Shih Kai is practically a prisoner in his residence within this city, as he has reason to fear assassination should he venture out. The roofs of the fine buildings within this city are to be seen from the outside and show that the buildings themselves must be decidedly imposing.

The Forbidden City is virtually a great palace made up of various buildings and the Tartar conquerors who designed it, with good purpose, made the palace their imperial residence, a last citadel within the city and which could be easily defended to the death in the old days when the enemy had seized the outer walls, for without powerful cannon the place was impregnable. One of the most important parts of the palace is the Hall of Great Harmony. There the emperor used to sit enthroned on great occasions receiving the homage of his subjects. There too he sat on the Chinese new year, his own birthday, the time of offering decrees and on other occasions, as the rigid rules of court etiquette required and of which he was the slave. The hall is 200 feet long, a hundred wide and a hundred high and is on a noble terrace of white stone twenty feet above the courtyard and reached by five flights of stone steps flanked by marble balustrades, which also surround the terrace and all is exquisitely carved in fine designs. A number of huge bronze urns and two large bronze tortoises and storks also adorn the approach.

The Temple of Heaven. One of the most imposing affairs in all Peking is the Temple of Heaven, and said to say, like so many other things pertaining to the late dynasty, it is doomed to decay, though so far it is in a fair state of preservation, as it has been abandoned but a short time. It was first built by the Emperor Yung Lo in 1421 and enlarged in 1751 by Chien Lung, both of the Ming dynasty and called the Son of Heaven, who came there to worship. There they used to pray for a successful continuance of their reign, good harvests and prosperity generally.

While viewing it one is impressed with the lavish use of means indulged in by the royal individuals who thought so little of their subjects and so much of their own aggrandizement. The series of buildings comprised in an enclosure three and a half miles in extent and includes a vast area of land which was well kept up during the reign of the kings who made good use of the buildings in their own honor, but the great landscape is now grown to weeds and the beautiful buildings will soon begin to tarnish and decay, as most of them are of wood. There are differ-

ent compounds within the enclosure and three temple edifices, the Chi-Nien Tien, Hwang Chung Yu, and the Pai Ti. The first named is the tallest and is cone shaped, with three pagoda like roofs and on the top of the last one a great golden button visible for a long distance. I said golden, and so it appears, but of course the button is only overlaid with the precious metal and is quite conspicuous.

The roof tiles of the temple are beautiful blue glazed and from a broken one lying on the ground I brought away a souvenir which I prize highly. The temple is a fine sample of the best Chinese architecture and is indeed a lovely affair. It contains within its walls tablets to different emperors and many interesting articles. The walls are beautifully adorned and there is much about it that is attractive. The second building, the Hwang Chung Yu, is not so tall and imposing, but it is located on a hill, which gives it a great deal of prominence. It is reached by two noble flights of steps and between them is an incline of pure, white marble, beautifully carved and which is said to have been sacred to the steps of the emperors only. Within are some fine adornments, notably four great wooden pillars extending from the floor to the roof and beautifully painted and ornate. The walls and ceilings are also fine and the whole shows the free use of means by the royal sons, who used the place as a little and yet had them sacredly kept for their own purposes.

The most wonderful of the whole is the Pai Tu, a great altar, as it were, standing in the midst of a great lawn and is constructed of pure white marble. It is 210 feet in diameter at the base and is ascended by four flights of steps, one facing north, one south, one east and one west. These are double and between each flight is a marble incline exquisitely carved in intricate figures and wonderfully executed. This was also sacred to the steps of royalty only and the feet of common persons must find other resting places. Arranged about the top were a number of finely chiseled designs and figures, but the guide said the Japanese had disgraced or removed them so that now only the ruins of what were once so beautiful remain.

This altar has seen some of the most gorgeous pageants ever witnessed in the world. When the emperor went to worship there he was arrayed in the most extravagant robes and accompanied by a great retinue of officers and servants of high rank and hundreds of officers of state and all were clothed in robes of the most gorgeous silk and gaudy uniforms. With these were thousands of servants and officials of lower rank and thousands of soldiers, so that it can easily be seen what an imposing array there must have been.

The emperor used to visit the Temple of Heaven first during the first moon of the Chinese year, when he worshiped before the ancestral tablets in the Chi Nien Tien temple, the largest of the two, and there he used to get his annual mission as ruler. During the fourth moon of the Chinese year the emperor came to worship in the Hwang Chung Yu temple and there pray for a good harvest and abundant rain, and his third visit was to the lovely marble altar in the open air. This must indeed have been an imposing sight, for the pure white of the marble would contrast finely with the green of the grass on the lawn and the gorgeous colors of the robes and uniforms worn by the worshippers.

Apart from the temple buildings described is a section surrounded by a wall and moat and the latter is guarded by a fine marble railing and is crossed by beautiful marble bridges and within are a number of buildings and here the emperor some times stayed for a time when paying his regular visits and here the retinue found a resting place and the exact room is pointed out by the guide. There are many evidences all about of what was once wonderful elegance and it seems a pity to have the whole thing go to decay and yet on the other hand of what possible use would the affair be if kept up. As it is now a lot of coolies and loafers pick up a living by standing at the various gates and doors and demanding a fee for opening. It is said the visitor should pay ten cents to each, but we tried five and it worked well, though it brought growls from the loafers who wanted more, but finally when a party preceding us only paid the Cerberus at the gate three cents, we decided we had been too liberal with the change. Just how the get the privilege of staying there I am not aware, but they get it and certainly live without work if anybody ever did in the world and they are a seedy looking lot.

The Temple of Agriculture. Near the Temple of Heaven is the Temple of Agriculture, but it is not nearly as imposing. It is surrounded also by a wall and was constructed under the Ming dynasty and renovated under the emperor Chien Lung. The main building is impressively situated and has a beautiful tile roof, which attracts the visitors as soon as he enters the enclosure. They are now erecting a modern building, though just for what purpose I did not learn. It is not large nor very substantial. The temple building is called the Tai Shui Tien and in a part of it is a sort of agricultural museum where are kept on exhibition various implements in use in the kingdom at different times. When the emperor came to worship here, which he did twice a year, he used to wear a farmer's hat and clothes and go through the motions of sowing seed.

Another place of much interest is the Lama Temple, which is inhabited by a lot of loafers called by courtesy monks, though it is said that they sometimes recruited from a stratum of society not wholly desirable. This temple was formerly a palace, but was changed to a temple in 1723 by the emperor Yung Chong. Here, too, as we passed from one place to another we were

asked for money, but were a bit wiser from experience and gave the ragamuffins who stood at the gates smaller fees, but were admitted just the same. As we entered the part inhabited by the hundreds of priests and monks an unearthly din of horns and cymbals greeted our ears and we saw a lot of bare heads tooting away, making simple blasts on all sorts of horns, some six or eight feet long, and with no semblance of music. They seemed to be tooting just for the fun of it, for they were cattered all about the buildings and premises and not doing anything in concert.

There were various study rooms, in which were desks and seats, showing that at times somebody is supposed to study some, though we saw no pupils or books. There are several classes of Lama priests, some coming from Mongolia and some from Tibet or other parts of China. The high priest is called the Living Buddha and is a Thibetan. There are various temples and they contain many images in bronze and wood, some hideous and others not so bad, and in the main building is a colossal statue of Maitreya, called the coming Buddha. This wonderful piece of statuary is seventy feet high and all the limbs are in proportion. It is painted a brilliant red and is indeed imposing. The priests solemnly assure you that it is made all from one piece of wood and if that be the case the tree must have been twenty feet in diameter, but they say it came from Thibet, so we were not able to go there and ascertain, but certainly if they did use two pieces of more, the joints were well covered and concealed. We looked at it from below and then ascended the gallery which overlooks the whole and were indeed impressed by the colossal proportions of the great image. In the courtyard is a praying wheel where the devout may offer prayers by machinery, effecting a great saving of time and effort.

Near by is another interesting object.

The Confucius Temple. In the compound containing the various buildings are many tablets or great stone monuments and in the temple itself is a monument to the especial memory of Confucius. In addition there are many tablets to the memory of various sages and wise men. There are also a number of old stone drums and several huge monuments standing under kiosks with roofs of beautiful yellow tiles. These stand on great tortoises and the tablets contain lists of the successful wars carried on by various emperors.

The hal lot classics is another attractive place and is surrounded by a wall and it is there that the doctrines and classics of Confucius were taught for centuries. At the south entrance is a small edifice of highly colored tile and in the center another surrounded by a marble balustrade and a small moat which was originally a lotus pond. In the rear is the throne building, which is the most gorgeous of all, but I shall not occupy space with a description of it. There are tablets to the memory of various emperors, a beautiful screen and other valuable articles and in the courtyard are some of the stones on which were originally inscribed the full contents of nine classics. There are also fine bronze incense burners, carved screen and chairs of time long ago and many other curiosities.

On a hill not far away is

The Drum Tower, which is 130 feet high and in the great hall are three big drums which are beaten at nine p. m. to announce the time of rest. From the summit a fine view of a part of the city is had.

The Bell Tower is near by and we climbed to the top and saw the largest hanging bell in the world. It weighs 120,000 pounds and is struck with a swinging log each day. It is said the founder's daughter jumped into the hot metal when the bell was being cast and it helped the success of the casting, but it cost the founder his life.

GREEK AND SERBIAN DELEGATES CONSENT TO FIVE DAY TRUCE

Action Seems To Bear Out the Indications That Transport Difficulties Were Hampering the Greeks.

London, July 31.—The alacrity with which the Greek and Serbian delegates to the Balkan peace conference at Bucharest consented to day to a five days truce, bears out the indications emanating from Greek sources yesterday that transport difficulties were hampering the Greek operations and that the recent fighting had been more favorable to the Bulgars than the Greeks were willing to admit. This seems to be further confirmed by a Sofia semi-official despatch saying the Bulgars had won victories on the upper Brezalnitsa river, the plain of Lechova and in the Mesia Valley.

It is expected that the conference at Bucharest will last two or three weeks and the chances are said to favor peace being arranged. The government informed parliament to day that Great Britain would take no separate action against Turkey in the Balkan dispute.

NAPS CAPTURE BOTH GAMES FROM BOSTON

CLEVELAND WINS FIRST 5 TO 2
AND SECOND 4 TO 2.

In Both Contests the Naps Bunched Enough Hits in One Inning To Win Making Four in the Eighth of First Game and Four in First of Second.

Boston, July 31.—Cleveland put an end to Boston's winning streak and took both games of a double header to day, the first five to two and the second four to two.

In the seventh and eighth Bledsoe was hit hard and was relieved by Hall in the latter inning. Boston had men on bases in almost every inning but Falkenberg was effective in the pinches.

Cleveland batted two Boston pitchers off the mound in the first inning of the second game. Hall then held the visitors to two hits in 8 innings. A one-hand running catch by Hooper in the first game was a feature.

CHICAGO CUBS MAKE IT TWO STRAIGHT FROM NEW YORK

Cubs Win Second Game of Series After an Uphill Struggle 5 to 4

Chicago, July 31.—Chicago made it two straight from New York today by winning an uphill contest 5 to 4.

In the fourth inning Left Fielder Burns of New York was knocked unconscious with a thrown ball by Shortstop Bridwell of Chicago. After several doctors were summoned he regained consciousness and refused to be taken out of the game.

The New York team is without the services of Captain Larry Doyle, who is forced to remain on the bench as a result of a bruised heel which he sustained in the game yesterday when he ran into Zimmerman's spikes at third base.

DANVILLE TAKES EASY GAME FROM SPRINGFIELD

Selby Held Watchmakers to Six Safe Hits But Was Liberal with the Passes—Other Three Eye Results.

Danville, Ill., July 31.—Selby was wild but effective and Danville had little trouble winning 4 to 2.

Two fast double plays by the locals cut off possible runs for the Senators.

DOING

Not Much Difference What You Do

If you have your wages all spent by the time you get them—might as well be a slave and be done with it! Slaves get their board and clothes and a place to sleep—and that's about all the man has who only has his week's wages long enough to divide them between the grocer, the butcher, the rent man and the coal man.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
persistence, which finally secured for
him a good position.

HYGIENE SHOW IN PERU.
Lima, Peru, July 31.—In connec-
tion with the fifth Latin American
Medical congress there was formally
opened here today an international
exposition of hygiene. Many coun-
tries have sent exhibits to the ex-
position, which is to continue open for
two months. The exhibits include
machinery, drawings and apparatus
connected with the providing of
drinking water, treatment of sew-
age, disposal of refuse, construction
of dwellings, streets and roads, and
all other matters coming within the
scope of hygienic science.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCK MARKET IN UNSETTLED CONDITION

LEADING STOCKS SHOW MIX- TURE OF SLIGHT GAINS AND LOSSES.

By Midday All Gains Were Wiped
Out, Some Speculative Movements
Going Under Wednesday's Close—
Close Was Active With no Natural
Net Changes.

(By Associated Press)
New York, July 31.—The most
striking feature of today's stock mar-
ket was its extreme susceptibility to
professional manipulation and the
continued absence of outside or pub-
lic interest in its advances or de-
clines.

Initial trading reflected the un-
settled conditions which have char-
acterized business on the local ex-
change all through the week. Lead-
ing stocks and losses, only two in-
stances extending beyond fractions,
Canadian Pacific which soon fell to
full point and in Illinois Central
which made a lower record than on
the preceding day.

Before the end of the first hour,
however, all losses were effaced, with
marked strength in steel, Union Pa-
cific, Amakamated and Reading.
Trading in steel was especially note-
worthy because of the large blocks
taken at best prices in many months.

By mid-day these gains were oth-
erwise, some speculative move-
ments going under yesterday's close.
The close was active with no nat-
ural net changes.

NEW PLANT OF THE JENKINSON-HAXBY COMPANY

The new plant of the Jenkinson-Haxby Company is completed and operations will commence there today. The building represents an expenditure of \$40,000 and is modern in every detail. The fact that ten car loads of flour are already stored in the building indicates that the company is preparing for business along extensive lines. The building is constructed of Alton brick trimmed with Bedford stone and has reinforced concrete floors and roof. Experts who have examined the plant are unanimous in the opinion that it is a model of convenience and that it represents the very best in bakery machinery and equipment. Joseph D. Goveia drew the plans for the building proper and had the general contract which called for the expenditure of something more than \$22,000. The machinery, ovens etc., cost 18,000. Altogether the splendid building is a great credit to Jacksonville and a substantial evidence of the faith the members of the firm have in their home city.

MOTHER GOOSE BALL.

Newport, R. I., July 31.—Newport society is on tiptoe in anticipation of the Nursery Rhyme and Mother Goose ball which Mrs. Stuyvesant Fish is to give tomorrow night at her palatial summer home. The Crosways. The ball has been heralded as quite the most novel and elaborate function of its kind that Newport has seen in years. Amid a picturesque scene that will recall all the favorite episodes of Mother Goose and other literature of the nursery twelve professional dancers from New York are to give an original ballet. The younger element of society will appear at the ball dressed as Jacks and

Jills, Little Jack Horners, Little Red Riding Hoods and other well known characters that figure in the library of childhood.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hiner, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers. (Adv.)

SILVER ABBY SMASHES LOCAL TRACK RECORD

ED JERICHO SENDS MARE ACROSS IN 1:04 1-2 IN THIRD RACE.

First Is Almost a Gift for Fred Points' Gift Gameleon—Second Is Stubbornly Contested—Free for All Trot Also a Thriller—A Good Seized Crowd Turns Out—Observations and Notes.

Grand Rapids, which is a suburb of Grand Haven, located on Michigan's map, is cocky about her furniture manufacturing industry, and during the present week is more than "stuck up" because the Grand Circuit trotting meet is being held within her midst. But Grand Rapids, when it comes to the trotting game, has nothing on the grand matinee given Thursday by the Jacksonville Driving club. Uhlan at the Michigan town on Monday attempted to splinter a world's record and failed. Silver Abby, with Ed Jericho, of New Berlin in the seat, at the local matinee went out in the second heat of the free-for-all trot, third on the card, and smashed into smithereens the local trotting record in 1:04 1-2 for the half mile, and the team were turned the trick with its head straight up and mouth wide open.

The attendance was encouraging to the officers of the driving club, and all the more so because of the great number of the fair sex present. The races were all stubbornly contested with the exception of possibly the first, the free-for-all pace, which was won in straight heats by Fred Points' bay gelding, Gift Gameleon.

The second race was a thriller all the way, and the sharpshooters were never certain until the wire was reached whether their favorite or the other fellow's choice would win. The third was another event that kept the crowd guessing all the way. Silver Abby was a pronounced favorite; but Florence and Axytell, the winner, had a goodly number of rooters.

The fourth race was for green pacers, and they were an unruly set to get started. This race was made up of Jacksonville horses entirely, except for Marie Lucy from Virginia, who captured the first money. The rooting in this race was evenly divided between the five starters.

The summaries follow:

First race, free for all pace, purse \$40:

Gift Gameleon, b. g., 2:13 1/4
Fred Points, New Berlin (Jericho) 1 1
John Dudley, b. g., 2:06 1/4
Clark Green, Jacksonville (Clark Green) 2 3
Arlington, b. g., 2:08 1/4
Thomas, Winchester (G. Purvines) 4 2 3
Oscar Wilde, ch. s., 2:12 1/4
W. A. McDaniel, Jacksonville (McDaniel) 3 d
1:04 1/4, 1:04, 1:04.

Second race, 2:30 trot, purse \$50:

Joe Custer, ch. g., Dr. Neville, Mercedosa (Chas Massey) 1 3 1
Terresna Directly, b. m., George Stewart, Winchester (N. Purvines) 2 2 1 2
Ethel Nell, b. m., H. H. Massey, Jacksonville (H. H. Massey) 3 3 2 3
1:12, 1:11 1/4, 1:12, 1:11.

Third race, free for all trot, purse \$40:

Axytell, b. g., 2:06 1/4
Geo. Peak, Winchester (Geo. Peak) 2 2 1 1 1

Silver Abby, r. m., 2:16 1/4
Ed Jericho, New Berlin (Jericho) 1 1 3 2 2 2
Florence, b. m., 2:14
W. N. Hairgrove, Jacksonville (Chas. Massey) 3 3 1 3 3 d
1:05 1/2, 1:04 1/2, 1:06 1/2, 1:05, 1:07.

Fourth race, Green pace, purse \$50:

Marie Lucy, b. m., R. W. Lacy, Virginia (W. A. McDaniel) 1 1 2 3 1
Carrie Tell, b. m., Harry Norris, Jacksonville (H. Norris) 3 2 1 1 2
Little Tanner, b. g., Harrison Davenport, Jacksonville (Davenport) 2 3 3 5 5
Jessy Mack, blk. m., Geo. Wheeler, Jacksonville (N. Purvines) 4 4 4 2 3
Jennie C., b. m., H. H. Massey, Jacksonville (H. H. Massey) 5 5 5 4 4
1:12, 1:12, 1:11 1/4, 1:12 1/2, 1:10.

The trotting and pacing card was brought to a fitting close with a nifty half-mile running race, which was won by Wier, owned by Dr. Watt of New Berlin, against Taploca, owned by John Ruble of New Berlin. Time, :52.

Judges—J. W. Woods, C. F. Corrington and George Craig. Timers—Scott Green, Joan Cleary and William Masters. Starter—N. T. Kirby of Springfield.

Bits of Stretch Gold Dust.

Oscar Wilde was overtaken by a slight accident and was withdrawn after the first heat of the opening race.

J. Edward White, known among his cronies as "Peck" occupied a seat near the band and drunk in all of the sweet strains dropped from the drum.

Dr. H. B. Carriel, superintendent of the State Hospital, was one of the most interested of the rail birds. The Journal's sharpshooter is in doubt as to which Henry Frisch of Myers Bros., enjoyed the most—Jeffries' Band, the circus lemonade or the races. He appeared to be enjoying everything.

Jack DeCastro was a very observant fan at the rail when they finished.

After the second race the auto was anything but a luxury for Clarence Lukeman, and he beat it to a roost among the rail birds.

Al Spaulding was missing nothing after they turned into the stretch and reached the wire.

New Berlin was represented by a happy crowd and they had license to make noise when you stop to think of Gift Gameleon, Silver Abby and Ed Jericho. The following were among the New Berlin rooters: George, John, Godfrey and Frank Bergsneider, Paul Zeigler, Ed Reidy, George Douglas, Irvin Dunlap, Larry Fahey, Mayor Reesch, Will Ragan, Will Pepper, Henry Smith, Mat Corrigan and Johnnie Holman.

Among those from Winchester were Dr. J. W. Freeman, G. W. Rorick and Robert W. Allen, and they were pulling strong for Terresna Directly in the second.

Dr. A. R. Gregory, Logan Black, city, and Wiley Todd, Point, were glimmed in close proximity to the lemonade booth.

The state capital sent down Jim Whalen, Arley Dudley, Will Hawks and Bill Heman, all of whom pre-empted claims upon the west rail.

George Wheeler of Sinclair and Tenby Kilam of Markham were close students of the score card.

James Rabbitt, William Pearman and Clark Stevenson appeared as cool as the proverbial cucumber, and all wore a May-day smile in the sweltering heat.

Capt. Jim Frahey was wano, al-

right, and enjoyed himself about as well as if he was back in his old swimmin' hole days.

The ladies, bless em, they were everywhere—in the grand stand, in autos, in buggies and along the rail.

James McGinnis accompanied by his uncle, John Redmond of Chicago enjoyed the festivities in the neighborhood of the band stand.

Among others Franklin was represented by O. E. and M. H. Ryan and A. L. Lukeman.

Ben Davenport of Alexander "bugged the rail" throughout the entire card.

Guy Bender of Alexander was not missing any of the numbers as they flashed past the judges' stand.

Jerry Flynn and Bill Shannahan of Buckhorn were among those present, and were busily engaged making note of the improvements in horse flesh.

Joseph M. DeFrates was there or thereabouts most of the afternoon.

Races Postponed.

Grand Rapids, Mich., July 31.—Rain caused the postponement of today's Grand Circuit harness races. The program will be ran off tomorrow if possible and Friday's card has been put over until Saturday.

NEGRO MURDERER TO HANG.

Dallas, Texas, July 31.—With but momentary changes from the sullen demeanor that has characterized him since his arrest, Floyd Stanton, a negro, appears little affected by the fact that tomorrow is the date fixed for his execution. Stanton was found guilty of murdering his divorced wife.

Remarkable Cure of Dysentery

"I was attacked by dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers. (Adv.)

HOPPER FAMILY REUNION

HELD AT NICHOLS PARK

Annual Gathering Took Place Yesterday With Over Seventy Members in Attendance.

The annual gathering of the Hopper family took place Thursday afternoon at Nichols park with over seventy of the members in attendance. The day was ideal in every way and the attendance would have been larger had it not been for the busy season of the year, many of the farmers having work to do in the fields. Heretofore the event has been held about the middle of June.

It has been fifty-eight years since the first Hopper family came to this country from England. There are many members of the big family now and they are accounted among the best people of Jacksonville and Morgan county. At the noon hour yesterday a sumptuous dinner was served and the afternoon spent in social way. In the evening a number of the younger members of the family took supper at the park.

The following were among those present: Charles Hopper and family, Philip Hopper and family, Richard Hopper and family, James Hopper and family, Thomas Hopper and family, Charles Martin and family, Mrs. R. Dodsworth and family, John Moore and family, James Wilson, Miss Anna May Wilson, Dr. and Mrs. Charles Hopper, Mr. and Mrs. Howard Cully, Mrs. Samuel Young and children, Rev. H. F. Cusic and family, Chester Wilson and family, Annie and Eunice Hopper, Mr. and Mrs. J. V. Breckon, Mrs. Rislin, Miss Helen Green, Dwight Green, Miss Susie Plummer.

STATE HOSPITAL DEATHS.

Charles Lohr died Wednesday afternoon at the Jacksonville state hospital at the age of 63 years. He is survived by his wife and son Lester. The remains were prepared for burial by John H. O'Donnell and yesterday were sent to his former home in Hillsboro, where funeral services will be held and burial made.

Mrs. Arminda Morris died Wednesday afternoon at 12:15 at the Jacksonville state hospital, aged 53 years. The body was taken to the O'Donnell undertaking parlors and will be held until relatives are heard from.

BIG PRICE FOR LAND.

REV. J. S. AKERS PASSES
AWAY THURSDAY AFTERNOON

Deceased Was Son of Rev. Peter Akers, Pioneer Minister of Illinois—Born Near Jacksonville.

Rev. J. S. Akers, son of the pioneer minister, Rev. Peter Akers, passed away Thursday afternoon after an illness of several months.

Joshua Soule Akers was born on March 8, 1837, north of Jacksonville near the Ebenezer church, which stood on his father's farm. He was the third son of Dr. Peter Akers and Elizabeth Reid. His early education was received at Ebenezer and later he attended McKendree college, of which institution his father was then president. Moving with the family to Red Wing, Minn., he became an exhorter in the Methodist Episcopal church in 1860. When the call for volunteers was made he was one of the first to offer himself for his country's service, but was rejected because of physical disability. In 1861 he was licensed to preach by Dr. Channery Hobart and for seven years did pioneer work in Wisconsin. In 1867 he was transferred to Illinois conference and stationed at Carrollton. He served as pastor of the churches at Beardstown, Taylorville, Georgetown, Paxton and Roodhouse. Also as superintendent of the Western Seamen's society in Chicago.

In 1882, because of the failing health of his wife, he moved to Dakota. In this new country he did valiant work in helping to lay the foundations of the Methodist church and of her educational institutions. For six years he served as presiding elder of the Aberdeen district, South Dakota conference. Here he labored with great energy, organizing congregations, building and dedicating churches which stand today as monuments of his zeal and consecration.

In 1900 he was appointed financial agent of the Illinois Woman's college and returned to his native state. Three years ago Dr. Akers and wife went to Minnesota to be with their son. Here after a few months his wife died very suddenly. Since then, Mr. Akers, who has been in poor health, has made his home in Jacksonville. He was of a genial disposition, of a warm sympathetic nature, ever ready to devote his scholarly attainments to all worthy enterprises. The church of his choice, of which he was fifty-three years a minister, was especially dear to him, for it counted no labor too arduous, no sacrifice too great. He was married in 1858 to Miss Cynthia Wright, daughter of a Methodist local preacher. Their home with its "open hearted hospitality" was always a favorite spot with friends. Together with his father, Dr. Peter Akers, and his son, Rev. E. W. Akers, the family have given one hundred and thirty years to the Christian ministry.

He is survived by a sister, Mrs. George Todd of Minneapolis; two sons, Samuel G. of Portland, Ore., and Rev. Edwin W. Akers, who moved to Jacksonville this spring to be with his father.

Funeral services will be held at the residence of his son, Rev. E. W. Akers, 620 Hardin avenue, Sunday afternoon at 4 o'clock in charge of Rev. E. A. McCarty, district superintendent, assisted by Rev. G. W. Flagg, pastor of Centenary church, and other Methodist pastors of the city.

"Now the laborer's task is o'er;
Now the battle day is passed;
Now upon the farther shore
Rests the voyager at last.
Father, in thy sacred keeping
Leave we now thy servant, sleeping."

"There the tears of earth are dried,
There its hidden things are clear,
There the work of life is tried
By a juster Judge than here.
Father, in thy sacred keeping
Leave we now thy servant, sleeping."

"Earth to earth and dust to dust—
Calmly now the words we say;
Left behind we wait in trust
For the resurrection day.
Father, in thy gracious keeping
Leave we now thy servant, sleeping.
Leave we now thy servant, sleeping."

CITY AND COUNTY

Mrs. Earl Fountain of Chapin was trading in the city Thursday.

Miss Lydia De Pew and Sarah De Pew returned Thursday from Minneapolis, Minn. They first went to St. Louis and took the boat to Minneapolis and returned the same route. They report a most excellent time.

Earl Dodson, who has been visiting with his cousin, Frank Wilson of East State street, returned Thursday to his home in Davenport, Iowa. Col. Charles Taylor of Chapin was among those who attended the races yesterday.

WITH THE SICK.

Mrs. Frank Woltman, from east of the city, underwent an operation at Our Savior's hospital Wednesday. She is doing nicely.

Misses Inez Prather and Jencie Meredith of Winchester were in the city Thursday to see their mother, who is a patient at Passavant hospital.

Mr. and Mrs. E. J. Meyer of Bloomington have been called here on account of the illness of Mr. Meyer's mother, Mrs. J. J. Meyer of South Kosciusko street.

ARE REMODELING OFFICE.

The office of the Jacksonville Railway and Light companies on South Main street is being improved by means of new fixtures, a steel ceiling and new paper on the walls. With copper-colored metal work and wood work of dark quarter-sawn oak the remodelled office will present a very attractive appearance.

ENTITLED TO MORE HITS.

Members of Lukeman Bros.' ball team stated Thursday evening that they should have been credited with 15 hits instead of 7 in the account of the game at the park Wednesday with the Eagles. The Eagles, they say, made 3 instead of 5 hits.

MRS. HELEN BARR RENWICK DIES AT MINNEAPOLIS HOME

Illness Which Resulted in Death Began With Tonsillitis—Left Jacksonville Four Months Ago.

A telegram received Thursday morning by S. O. Barr brought the sad news of the death of his daughter, Mrs. Foster R. Renwick, at her home in Minneapolis. Her death took place at 10 o'clock Wednesday night after an illness of three months.

Mrs. Renwick prior to her marriage March 26 last, was Miss Helen Barr and she was the youngest daughter of Mr. and Mrs. S. O. Barr. She was born in this city twenty-two years ago and all of her life was spent here until she left the home as a bride just four short months ago. Following their marriage Mr. and Mrs. Renwick took a wedding journey of several weeks and then began housekeeping in Minneapolis. Soon afterward Mrs. Renwick suffered an acute attack of tonsillitis which developed into an inflammation of the heart. For a number of weeks her relatives have realized that there was no hope, although every aid known to medical practice was tried until she left her home suffering patiently and when the end came seemed just to quietly slip away to that other land. She was a member of Westminster church in this city and had some time before her marriage been a member of the choir and had taken part in various church activities. She was a graduate of the Jacksonville high school and her spirit was of such a bright and charming type that her circle of friendship was wide in its extent. For her life seemed to have large possibilities of happiness for herself and helpfulness for others and so her death is particularly sad.

Mrs. S. O. Barr and Miss Katherine Barr were in Minneapolis when the end came, the former having been there for several weeks and Miss Barr practically through the long period of sickness. Mr. Barr was also at his daughter's side during part of her sickness.

Mrs. Renwick is survived by her parents, three sisters, Mrs. J. H. Russell, Mrs. Edward Dunlap and Miss Katherine Barr and one brother, William Markoe Barr.

The remains, accompanied by relatives, will arrive in this city from Minneapolis this afternoon and announcement of the funeral will be made tomorrow.

SEEKS SUPERINTENDENCY.

S. W. NICHOLS HAS RETURNED FROM EUROPEAN TRIP

Change of Itinerary Plans Results in Early Arrival of Tourist—Others in Party Will Return in September.

S. W. Nichols expects to return the latter part of this week from his tour around the world. It was the original intention of the party to visit several parts of continental Europe and wind up with a tour of England and Scotland, sailing from Glasgow Sept. 20, but the other members of the party wished to go southward and visit Switzerland and various points in Italy and sail from Palermo Aug. 25, and as that part of the trip would be expensive and arduous and as Mr. Nichols had been over the territory twice already it was agreed that he would say goodbye to the other members of the party at Berlin and proceed home. He expects to visit Lima, Ohio, a place in which he formerly resided, and be back Friday or Saturday.

TRINITY PARISH REGRETS GOING OF REV. MR. MITCHELL

Resolutions Passed by Wardens and Vestry in Accepting His Resignation.

The fact was related in the Journal recently that Rev. H. H. Mitchell had resigned as rector of Trinity church to engage in mission work in the west. At a meeting of the church officials, Thursday the resignation was accepted with regret and the following resolutions were adopted.

Whereas, Trinity parish has for the last four and one-half years been blessed by having as its rector Rev. Herbert H. Mitchell, and has in that time been both materially and spiritually uplifted to an appreciable extent; and

Whereas, in the four and one-half years of his kind and faithful administration of his duties as pastor, he has endeavored himself to the hearts of all his parishioners beyond the power of words to express; and

Whereas, Mr. Mitchell has concluded that he can better serve God in the mission field than in pastoral service, and has accordingly tendered his resignation as rector of Trinity parish to enter upon his chosen work. Now, therefore, be it

Resolved, By the wardens and vestry of Trinity parish, on their own behalf and on behalf of the people of the parish, that the resignation of the Reverend Mr. Mitchell be accepted with sincere regret and the heartfelt prayer that great success and happiness attend him and his family in the new work.

H. M. Andre, A. J. Ward, wardens.
J. G. Ames, Charles Fawcett, W. T. Capps, A. R. Gregory, Jr., William Robinson, Walter Bonatti, vestry.

BUILDING NEW FRONT.

A new front is being built for the pool room and billiard parlor of Louis H. Engel on West State street which will add materially to its appearance. The contract for the improvement was let to W. H. Stull and the big plate glass was placed in position yesterday. The building was purchased by Mr. Engel's father in 1896 from the late William D. Humphrey. Prior to that it at one time belonged to Peter Pink who also owned the property adjoining it on the east.
